# What is Geoengineering?

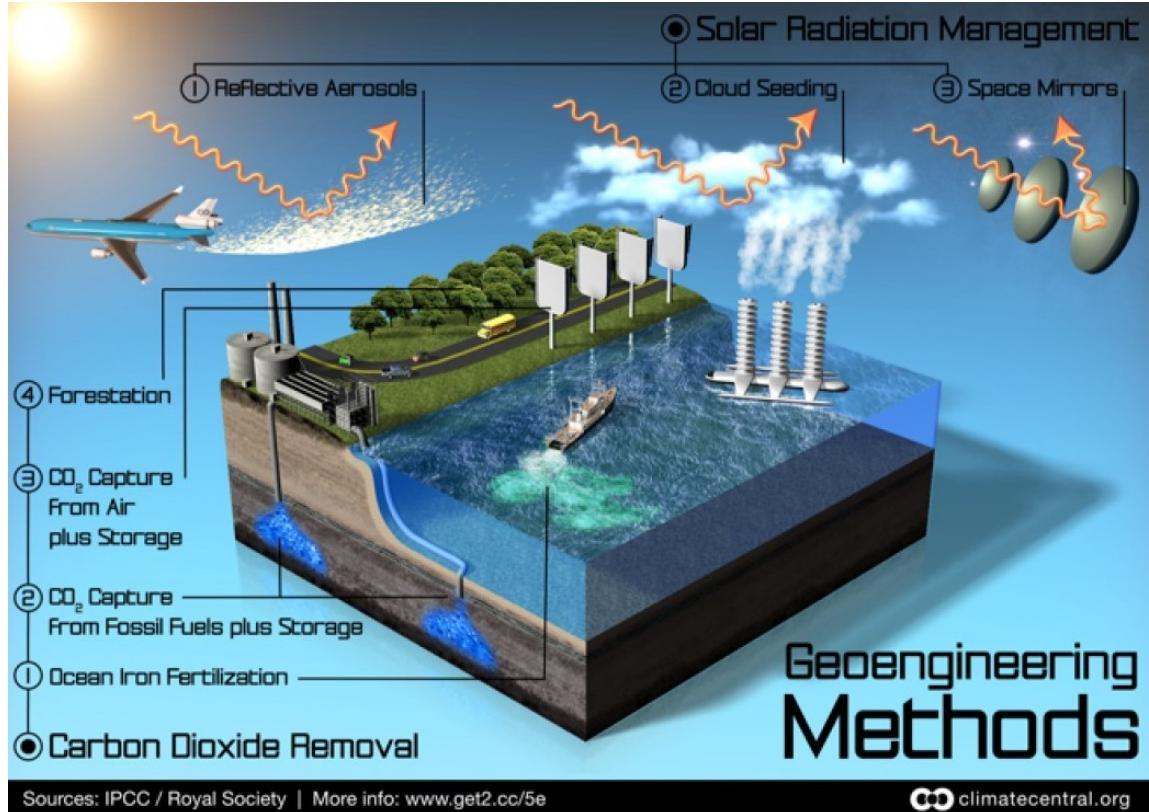

“The deliberate large-scale manipulation of an environmental process that affects the earth's climate, in an attempt to counteract the effects of global warming.”

<https://en.oxforddictionaries.com/definition/geoengineering>

# History of weather modification

- During The War Between The States it was noticed that firing cannon would sometimes trigger thunderstorms. After the war, the U.S government financed weather modification experiments.
- In the 1890's, for profit weather modification companies operated in drought stricken Kansas, charging farmers to (allegedly) cause rain.
- After World War Two, Kurt Vonnegut's older brother, Bernard Vonnegut, developed (apparently) effective rain causing technology while working at the General Electric Research Laboratory in Schenectady New York
- During the Viet Nam War, the United States Military engaged in weather modification over Viet Nam for military advantage.

# Solar Radiation Management

# GeoEngineering Watch.

- Founded by Dane Wigington.
- Website: [Geoengineeringwatch.org](http://Geoengineeringwatch.org)
- Mission: “Exposing the climate engineering cover-up.”
- Financing: Donations, book and DVD sales.
- Some important contributors:
  - Jeff Nelson, retired airline pilot.
  - Allen Buckman, former military meteorologist.
  - Dr. Stephen Davis, D.C. CNT.
